1.1	Definition of Creative Industries	37
1.2	Analysis Process	37
1.3	IDBR	39
<b>2</b>	<b>Detailed Conservation Area Data</b>	<b>40</b>

# 1 INTRODUCTION

This is one of four documents that report research done into the role of historic parts of towns and cities in nurturing groups of organisations that are involved in creative industries. A summary report explains all work done and summarises the main conclusions; a report summarises interviews with developers with experience of converting historic buildings for use by creative industries; another reports research done into creative industries in twelve case study conservation areas.

This report has full analysis of data from Companies House about companies defined by the Department of Culture, Media and Sport (DCMS) as being creative industries located in conservation areas in England. The methodology is explained in Appendix 1. Detailed data is in Appendix 2.

# 2 CREATIVES IN CONSERVATION AREAS

About 260,000 companies in England are registered by Companies Houses<sup>1</sup> under SIC codes defined by DCMS<sup>2</sup> as creative industries. About 67,000, 26% of the total, are registered in England's c.9,455 conservation areas. They are likely to have between c.460,000 and c.528,000 people working in them<sup>3</sup> and about a quarter of national Gross Value Added attributed to creative industries,<sup>4</sup> likely to represent c.£22-£25 billion in 2018.<sup>5</sup>

**Figure 1: Jobs and GVA of Creative Industry sectors in Conservation Areas**

Sector	Businesses	JOBS			GVA (2016)		
		Per Business	Total	% of Total	Per worker	Total	% of Total
IT, software and computer services	25,008	4.8	119,494	23%	£50,711	£6,059,677k	26%
Publishing	4,693	17.9	84,013	16%	£58,761	£4,936,714k	21%
Film, TV, video, radio and photography	10,624	7.5	79,661	15%	£60,309	£4,804,249k	20%
Advertising and marketing	6,427	8.2	52,545	10%	£57,152	£3,003,078k	13%
Music, performing and visual arts	11,374	8.5	96,652	18%	£26,618	£2,572,672k	11%
Architecture	4,086	6.0	24,601	5%	£38,878	£956,432k	4%
Museums, Galleries and Libraries	452	92.7	41,919	8%	£15,006	£629,042k	3%
Design and designer fashion	3,905	7.0	27,483	5%	£19,425	£533,859k	2%
Crafts	420	5.5	2,328	0%	£67,832	£157,899k	1%
<b>Total:</b>	<b>66,989</b>	<b>7.9</b>	<b>528,696</b>	<b>100%</b>	<b>£44,740</b>	<b>£23,653,622k</b>	<b>100%</b>

It is not possible to be precise about this from Companies House data. This is because a large proportion of those companies are registered at accountants' offices located in conservation areas. It is reasonable, however, to assume that a similar proportion are located in conservation areas.

<sup>1</sup> Excluding companies that are dormant or have not filed returns.

<sup>2</sup> See Appendix 1.1

<sup>3</sup> Based on DCMS estimates. The reason for the range is that, when the jobs are calculated per sector and added, they come to 7.9 jobs per company, representing c.528,000 jobs. DCMS, however, estimates 6.9 jobs per company in total, which would represent about 460,000 jobs.

<sup>4</sup> There is detail of this in the Summary Report.

<sup>5</sup> Assuming total creative industries GVA grew from c.£87bn in 2015 to £100bn in 2017, following the growth trend.

The research has identified about 35,000 creative industry companies that definitely operate from addresses in conservation areas, and it is that data which has been used for the research. The numbers do not include branches of creative industry companies and individuals that trade as sole traders<sup>6</sup> or in partnerships rather than as limited companies. Figure 2 shows that most have a turnover of less than c.£10 million.

**Figure 2: Size of CI companies in conservation areas, by accounts submitted to Companies House**

Size	Number	% of Total	Companies House Definition
Large	1,563	4%	
Small	19,676	56%	Any 2 of: turnover of £10.2 million or less. £5.1 million or less on balance sheet. 50 employees or less.
Micro	13,660	39%	Any 2 of: turnover of £632,000 or less; £316,000 or less on balance sheet; 10 employees or less
Total:	34,899	100%	

Figure 3 shows that IT related companies form the largest single group, with about 37% of creative industry companies in conservation areas.

This is, however, a substantially lower proportion than IT related companies form of all creative industry companies. Creative industry companies are of more diverse type in conservation areas than in non-conservation areas.

**Figure 3: Nature of creative industry companies in England, conservation areas and England excluding conservation areas**

	England		Conservation Areas		England minus CAs	
	Companies	% of total	Companies	% of total	Companies	% of total
IT, Software and Computer Services	125,495	48%	25,008	37%	100,487	52%
Music, Performing and Visual Arts	34,776	13%	11,374	17%	23,402	12%
Film, TV, video, radio, photography	34,078	13%	10,624	16%	23,454	12%
Advertising & Marketing	20,524	8%	6,427	10%	14,097	7%
Publishing	15,022	6%	4,693	7%	10,329	5%
Architecture	13,936	5%	4,086	6%	9,850	5%
Design	14,910	6%	3,905	6%	11,005	6%
Museums, Galleries, Libraries	1,202	0%	452	1%	750	0%
Crafts	1,165	0%	420	1%	745	0%
Total:	261,108	100%	66,989	26%	194,119	74%

<sup>6</sup> Including freelancers and home workers.

**Figure 4: Proportion of creative industry companies by type in non-Conservation areas and Conservation Areas and the difference (in % points)**

	England minus CAs	Conservation Areas	Difference % points
IT, Software and Computer Services	52%	37%	-14%pts
Music, Performing and Visual Arts	12%	17%	+5%pts
Film, TV, video, radio, photography	12%	16%	+4%pts
Advertising & Marketing	7%	10%	+2%pts
Publishing	5%	7%	+2%pts
Architecture	5%	6%	+1%pt
Design	6%	6%	0 %pt
Museums, Galleries, Libraries	0%	1%	0 %pt
Crafts	0%	1%	0 %pt
Total:	100%	100%	0 %pt

Figure 5 shows that creative industries are largely concentrated in a relatively small number of urban conservation areas. 1,890 conservation areas, accounting for 20% of the total (36% by area), have 87% of all creative industry organisations located in conservation areas.

The top 50 (0.5% of all conservation areas by number, 2.5% by area) account for about a quarter of all creative industry organisations in conservation areas, and the top 300 (3% by number, 9% by area) account for about a half.

**Figure 5: Proportion of all creative industry companies in conservation areas that are in the Top 50, Top 300 and Top 20% by number of creative industry companies**

	Top 50	Top 300	Top 20%
% of all Conservation Areas	0.5%	3%	20%
% of total Conservation Area size (sq km)	2.5%	9%	36%
% of Listed Buildings in CAs	10%	31%	76%
% of Creatives in listed buildings	33%	66%	99%
% of listed buildings with 1 or more creative companies	28%	61%	98%
% of creative industry organisations	24%	51%	87%

Appendix 2 has detailed data about creative industry companies in the top 300 conservation areas, ordered by the number of creative industry organisations located in them.

Figure 6 shows strong correlation between density of listed buildings and density of creative industries in conservation areas<sup>7</sup>.

The top 50 (2.5% by area) have about four times more listed buildings per square km on average than the top 300, about four times more on average than the top 20%, and about ten times more than the average for all conservation areas.

<sup>7</sup> As measured by number per square km.

**Figure 6: Numbers of creative industry companies and listed buildings in commercial use per square km<sup>8</sup> in conservation areas**

	Top 50	Top 300	Top 20%	All
Creative industries:	111	69	28	12
Listed buildings in commercial use:	50	43	25	12
Creatives in listed buildings:	10	6	2	

Figure 5 shows that creative industry sectors that might be considered most “creative”- such as crafts, Film & TV, Advertising and Marketing, and Music, Performing & Visual Arts - tend to be most concentrated in certain conservation areas.

The top 50 conservation areas (2.5% by area), for example, have about 31% of all companies in conservation areas involved in Film, TV, Video, Radio and Photography (Film etc.).

The proportion of IT, Software and Computer Services companies (IT etc) accounted for by the top 50 is high (19%) but much lower than for other creative industry types.

**Figure 7: % of all creative industry companies located in Conservation Areas**

	Top 50	Top 300	Top 20%
Crafts	58%	74%	93%
Film, TV, video, radio, photography	31%	59%	89%
Advertising & Marketing	29%	56%	89%
Music, Performing & Visual Arts	24%	54%	89%
Publishing	24%	52%	87%
Design	21%	49%	85%
Architecture	22%	47%	86%
IT, Software & Computer Services	19%	44%	83%
Museums, Galleries, Libraries	17%	41%	86%
<b>TOTAL</b>	<b>24%</b>	<b>51%</b>	<b>87%</b>

Figure 8 shows the top 300 conservation areas by number of creative industry company, and Figure 9 shows the top 300 by number per square kilometre.

The top of both lists is dominated by conservation areas in Central London.

Figure 10 divides the top 300 conservation areas by city and town. It shows the extent to which London dominates. It has almost 60% of the conservation areas with most creative industry companies. They account for almost two thirds of all creative industry companies located in conservation areas.

The cities of Brighton and Hove, Bristol and Bath form striking clusters outside London.

Figure 11 has the density of creative industry companies by city and town, showing a different pattern.

There are heavy concentrations in historic parts of places like Nottingham and Liverpool. This indicates that the size of the historic area in any city has a big impact on the number of creative industry companies a city is likely to have.

<sup>8</sup> This data shows relative numbers, as explained in Appendix 1.

**Figure 8: Top 160 Conservation Areas by number of Creative Industry companies**

Figure 13 shows the top 30 conservation areas by type of creative industry, by number per square km. It shows the extent to which companies of similar type tend to congregate together. They show dominant clusters of media related businesses in Charlotte Street, design / architecture related businesses in Old Bethnal Green Road, IT related businesses in Moorfields, craft-related businesses in Hatton Garden, publishing related businesses in Haymarket, and performing arts businesses in Chinatown / Covent Garden / Seven Dials.

**Figure 13: Top 30 Conservation Areas by Creative Industry companies, by number of companies per sq km**

IT is the sector most likely to dominate a creative industries cluster in a conservation area. It accounts for over 30% of the companies for about half of the top 300 conservation areas. Figure 14 shows those where IT represents a half or more of the creative industry companies.

**Figure 14: Top 300 conservation areas where IT related companies are 50%+ of CI companies**

Figure 16 shows the top 30 by types of creative industry other than IT-related in terms of the proportion of creative industry businesses in the Top 300 creative conservation areas. This is another way of showing where there are clusters of specific type.

Craft makers – predominantly jewellers – remain a major presence in Birmingham’s Jewellery Quarter and London’s Hatton Garden.

**Figure 15: Proportion of creative industry companies accounted for by crafts**

Jewellery Quarter	Birmingham	29%
Hatton Garden	Camden	20%
Knightsbridge	Westminster	9%
Belgravia	Westminster	6%

**Figure 16: Top 30 Conservation Areas by the proportion of all Creative Industry companies accounted for by different types**

Figure 18 shows the same 21 places by proportion of the creative industry companies accounted for by different types, with IT, Museums and Crafts removed. It gives a clearer picture of where there are clusters. It shows notable design-orientated clusters in the Harrogate and Royal Leamington Spa conservation areas. Others notable clusters include: Advertising and Marketing in conservation areas in Manchester, Leeds and Cheltenham; Architecture in conservation areas in Cambridge and Newcastle; Film etc. in Bristol, London and Nottingham; Music etc. in Sheffield, Liverpool and Brighton and Hove.

**Figure 18: Proportion of companies by type, excluding IT, Museums & Crafts**

### 3 DISTRIBUTION OF CI IN CITIES

This section has maps showing creative industries and conservation areas in central London and the central areas of the eight largest regional cities, known as the Core Cities. The aim is to see whether there appears to be a propensity for organisations involved in creative industry companies to be grouped in conservation areas.

Figure 20, Figure 21 and Figure 22 show the London West End, City / East End, and West London respectively. These areas are almost entirely made up of conservation areas, so it is not possible to say that conservation areas are responsible for clusters. The dense concentration of creative industry companies in Soho and Fitzrovia is striking.

Figure 23 and Figure 24 show North London and South East London. Much of those areas is also covered by conservation areas. While there are many creative industries companies outside conservation areas, especially in locations like Kentish Town and the Bankside area in Southwark, creative industry companies are observably more likely to be in conservation areas.

The subsequent maps show the distribution of creative industries in the eight “core cities”, Birmingham, Bristol, Leeds, Liverpool, Manchester, Newcastle-upon-Tyne, Nottingham and Sheffield.

The most prominent groupings of creative industries are in conservation areas in each case, although there are exceptions. It is likely that most of the exceptions are also historic areas but have not been designated conservation areas. There is a creative industries cluster in the area to the south of Liverpool city centre called the Baltic Triangle, for example, that is not a designated a conservation area, but contains a significant number of historic industrial buildings.

# APPENDICES

# 1 METHODOLOGY

## 1.1 DEFINITION OF CREATIVE INDUSTRIES

It is not possible to make a clear distinction between whether a type of business is “creative” or not. The matter is muddled by the many people doing creative work in businesses that are not considered to be creative in totality. Much work has been done on issues relating to this on behalf of the Department for Digital, Culture, Media and Sport (DCMS) and organisations such as Nesta.<sup>9</sup> This research simply accepts the DCMS definition.

Creative Industries is one of five sectors that DCMS covers. The others are Cultural Sector; Digital Sector; Gambling; Sport; Telecoms; and Tourism. There is overlap between them: some types of organisation, in other words, are included in more than one sector.

DCMS defines the following SIC codes as being creative industries, grouped under 9 categories:

1. Advertising and Marketing – SIC codes 7021, 7311, 7312
2. Architecture - 7111
3. Crafts - 3212
4. Design - 741
5. Film, TV, Video, Radio, Photography - 5911-14, 601-2, 742
6. IT, Software and Computer Services - 5821, 5829, 6201-02
7. Publishing - 5811-14, 5819, 743
8. Museums, Galleries, Libraries - 9101-02
9. Music, Performing and Visual Arts - 592, 8552, 9001-04

## 1.2 ANALYSIS PROCESS

Historic England (HE) provided names and co-ordinates for conservation areas in England. There are about 9,455.<sup>10</sup>

HE provided a schedule of spaces in listed buildings that are in commercial use.<sup>11</sup> It has 83,798 entries. There are multiple entries for many listed buildings (i.e. the ground and first floor of the same building might appear twice).

They were allocated to the conservation areas using the Colliers GIS system. This showed 35,354 unique listed buildings used for commercial purposes in conservation areas.

<sup>9</sup> A charitable foundation that promotes innovation.

<sup>10</sup> Some have not been notified to HE by the relevant local authority.

<sup>11</sup> This list has been created by HE going through the database of listed structures and marking those which appeared to be used for commercial purposes. This will inevitably be imprecise given that there are about 500,000 listed structures and it can be difficult to determine what purpose they are used for.

Data was obtained from Companies House of all companies registered in England classified under the SIC codes defined by DCMS as being creative industries.

There are 386,971 records,<sup>12</sup> 261,109 excluding companies which are dormant or have not filed accounts. That is consistent with the number of enterprises quoted by DCMS.<sup>13</sup>

The company records in each of the 9 creative industry categories were assigned to each conservation area. There were 67,478 active companies excluding those recorded as being dormant and not having filed accounts.<sup>14</sup> This suggests that about 25% of enterprises involved in creative industries are in conservation areas.

Analysis of data in a selection of conservation areas showed it was distorted by many companies using the address of an accountant, lawyer or company registration service as their registered address. It is most likely to be an accountant. There are some instances of large numbers being registered to a company registration service.

A list of accountants was obtained from Companies House. The addresses were matched with creative industries companies. Creative industry organisations that shared an address with an accountant were removed from the list.

All other instances where there were more than 10 creative industry companies registered at a single address were checked to make sure they were where creative industry organisations were co-locating.

This resulted in a list of 34,754 creative industry companies in conservation areas, approximately half the number of creative industry organisations registered in conservation areas.

A large proportion of companies that are registered with an accountant, lawyer or company registration service<sup>15</sup> located in a conservation area will also operate in a conservation area. Other creative industries companies that are registered with an accountant, lawyer or company registration service outside a conservation area will operate in a conservation area.

The number of offices or studios occupied by creative industries will also be understated because the data does not include branch offices. Each company is, therefore, included just once, no matter how many branches it has.

The evidence presented here therefore represents **a sample** of creative industries in conservation areas.

The top 300 conservation areas, by number of creative industries, were separated for more detailed analysis. They account for 3% of all conservation areas in England, 8.5% by area, and 31% of the listed buildings in conservation areas.

The list of creative industries in each conservation area was matched with the schedule of listed buildings in listed buildings. This required putting the address records into the same format.

<sup>12</sup> For England.

<sup>13</sup> Which estimated about 248,000 in Britain in 2014. The number will have expanded since then.

<sup>14</sup> i.e. excluding those that are dormant or have not filed accounts. There are 102,741 entries in total.

<sup>15</sup> And, therefore, removed from the list.

## 1.3 IDBR

It was hoped that a better idea of the number of creative industry enterprises plus their turnover and employees might be obtained from the Inter-Departmental Business Register (IDBR). The IDBR data is only, however, available at Middle Super Output Areas (MSOAs) which tend to be larger than conservation areas and can contain more than one conservation area. It was therefore not possible to identify conservation areas in this dataset.

**Figure 33: Comparison of number of enterprises in conservation areas according to Companies House (only likely to represent less than half of the actual number, as explained above) and IDBR**

	No. of Enterprises			IDBR Data	
	Amended Companies House	IDBR	Companies House as % of IDBR	Employment	Turnover (£'000s)
Advertising & Marketing	3,439	19,780	17%	136,475	29,304,512
Architecture	2,468	12,090	20%	60,667	5,996,614
Crafts	269	1,025	26%	4,124	631,276

<b>Total</b>	<b>34,754</b>	<b>212,205</b>	<b>16%</b>	<b>983,745</b>	<b>155,526,522</b>

## 2 DETAILED CONSERVATION AREA DATA

Figure 34 has detailed data for the top 300 conservation areas by number of creative industries. The figures quoted for number of companies probably understates the true number of organisations in creative industries by at least 50% for reasons explained in Appendix 1.

Figure 35 shows the Top 300 conservation areas by density of creative industries, measured as companies per square kilometre.

Figure 36, Figure 37, Figure 38, Figure 39, Figure 41, Figure 42 show the top 100 conservation areas by density for, respectively: Advertising and Marketing; Architecture; Design; Film, TV, video, radio, photography; Publishing; and Music, Performing & Visual Arts.

Figure 40 has the Top 200 by density for IT, Software & Computer Services.

Figure 34: Top 300 Conservation Areas by Number of Creative Industry Organisations, sorted by density per square km

All information, analysis and recommendations made for clients by Colliers International are made in good faith and represent Colliers International's professional judgement on the basis of information obtained from the client and elsewhere during the course of the assignment. However, since the achievement of recommendations, forecasts and valuations depends on factors outside Colliers International's control, no statement made by Colliers International may be deemed in any circumstances to be a representation, undertaking or warranty, and Colliers International cannot accept any liability should such statements prove to be inaccurate or based on incorrect premises. In particular, and without limiting the generality of the foregoing, any projections, financial and otherwise, in this report are intended only to illustrate particular points of argument and do not constitute forecasts of actual performance.
